Residential Generator Application Guidelines

- Electrical permit application
- Manufacturer installation manual/specs for generator
- A copy of tax bill/proof of ownership if not on file
- *All* contractor licensed with the village
- Copy of survey indicating location of proposed generator with **dimensions to property line and to all structures***

**For Zoning purposes the location shall comply with accessory structure setbacks
(Permitted in required side yards)*

For Residential Code purposes, location shall comply with the following requirements of NFPA 37-2010, engines and their weatherproof housing shall be located 5 feet from any wall openings and combustible walls.

A minimum separation shall not be required where either of the following conditions exist:

- 1. The adjacent wall has fire resistance rating of 1 hour**
- 2. The weatherproof enclosure is constructed of noncombustible materials and it has been demonstrated that a fire within the enclosure will not ignite combustible materials outside the enclosure**

- Generator shall be supported on foundations or secured to noncombustible framework.
- Generator shall be located that exhaust gases will not collect adjacent to, enter into or be drawn into an occupied building
- All electric shall be installed as per the National Electrical Code
- Installation of appliances shall conform to the conditions of their listing and label and the manufacturer's installation instructions, NFPA 37-2010 and all applicable codes. The manufacturer's operating and installation instructions shall remain attached to the appliance

Required for Certificate of Compliance:

1. Electric certificate
2. Pressure test (Natural gas only)
3. Fire Marshal Approval (LP Gas Installation)
